

Versatility - common to the Swiss knife and Anutone!

Anutone's new range of interior products are like this Swiss knife – very versatile! Since two years Anutone has unleashed a stunning range of ceilings and walls that suit almost all architectural spaces for every kind of form, function and performance. Ceiling and wall finishes include fabrics, vinyls, textures, woods, plasters, metals used in offices, hotels, hospitals, malls, schools, airports etc.

Imagine

- 125m² of single-span, seamless, white ceilings installed in a few hours *after* carpet and furniture is in place!
- white modular ceilings that sport soft-fibre, plaster and metal tiles on the same grid in the same building but different locations to suit performance requirements
- factory-finished, lab-certified panels in woods, plasters and metals that create *undulating* ceilings.
- single panels in jumbo sizes that hang on walls or ceilings, finishing a large hall overnight again, *after*, carpet and furniture is in place.
- now you can paint, paper or laminate walls so that they not only look good but sound great too!

Yes, all this and more with Anutone's new range of interior products. Why not get a copy of the latest Design Revue presentation, DR3.2, launching 1st July, that showcases products with many project pictures to inspire you?

Challenge yourself, think change, transform interior design, use Anutone's versatility to your advantage and make your clients feel good!
