Anutone at GBC

Stall # 16 & 17

7th Edition
Green Building Congress 2009

India's Flagship event on Green Buildings
International Conference & Exhibition on Green Buildings
9 - 12 September 2009
HICC, Hyderabad, India

Subtex Nubby

Installed on Skelet O15
with Screenline at perimeter

Size 600x600x15mm with Steppe edge. Subtex Nubby is 0.9 NRC texture ceiling whose engineered surface aids diffused uplighting. Works best for open-plan and conference rooms in offices.

TEXTURES

Belgravia Pixel

Installed on Skelet U15
with Screenline at perimeter

Size 600x600x15mm with Steppe edge. Belgravia Pixel is microperf gypsum ceiling that guarantees a very stable ceiling and different aesthetics

PLASTERS

Serge Lay-in

Installed on Skelet T15

Size 600x600x15mm with Steppe edge. Serge Lay-in is grid metal ceiling for durability. Works best for corridors and those areas where utilities run through plenum and frequent shift of ceiling tiles is required.

METALS

Slats Haya

Installed on Skelet CC18

Size 160x2400x16mm with Tongue-Groove edge. AnutoneSlats Haya L16 is acoustic fibreboard with lineal perforations. It is installed as ceiling and wall in speciality spaces.

WOODS

'White is Green' is the theme at our stall at the Green Building Congress 2009, Hyderabad, as depicted above. The stall showcases white ceiling solutions that are green - Subtex Nubby (texture), Serge Lay-in (metal) and Belgravia Pixel (plaster) in different grid and perimeter. As a contrast we have also showcased Slats Haya (wood) as walls.

Anutone is strongly committed to the green building movement! In a bid to reduce the use of products and yet improve the

ambience, Anutone has developed Carnival Floats and Celebration Clouds for ceilings; modular panels for walls.

Find Navin, Rajesh and others from Team Anutone, at the stall, imparting knowledge to the building community on the benefits of green interiors. Pick up our special leaflet for the event.
