Celebration Clouds

for special spaces like CEO's cabin

Soft ST can be flat or curved panels that are suspended individually to result in Celebration Clouds. The ceiling soffit is black and these white panels look like floating clouds resulting in a surreal, sublime environment.

Soft ST Celebration Clouds impart an open-plenum look and help create amazing spaces like CEO's cabin that need to be upscale and very unique.

Soft ST belongs to Anutone's family of texture-based ceiling solutions and is in association with Owens Corning USA.

Form
