Designpanel Pixel

for entrance lobbies

Designpanel Pixel is a unique microperforated gypsum board that is installed on Strut CC systems. Pixel is a very special microperforated just 3mm square at 8mm centres precisely cut for laser alignment. At a distance the perforations are almost invisible.

Designpanel Pixel makes a very welcome, quiet and understated statement in reception lobbies and foyers.

Designpanel Pixel belongs to Anutone's Snazz family of plaster-based ceiling solutions and is in association with Danogips of Denmark.

Form

Surface finish	Plaster
Ceiling type	Span
System name	Designpanel Pixel
Size (mm)	1200x2400x12.5
