

Shapes ST

for gym and health club areas

Shapes ST are geometric clouds that are suspended discretely to create dynamic ceiling environments. Shapes ST consists of a soft-fibre core and special matting on the surface. Panels are suspended by a concealed Skelet T24 suspension system.

Shapes ST imparts an open-plenum look and adds volume to activity spaces like gyms and health clubs.

Shapes ST belongs to Anutone's family of texture-based ceiling solutions and is in association with Owens Corning USA.
