

# Subtex R and Subtex S for Tough or Value Installs

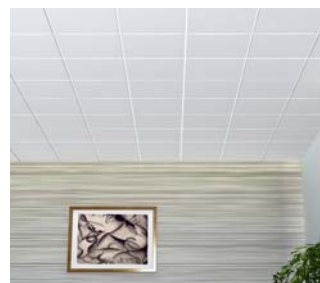

Subtex, introduced by Anutone a year ago, has been a huge success. A smooth-surfaced, lightweight tile, with none of the usual pinhole or worm-like patterns, ensures soothing aesthetics and high light reflectance.

Anutone is back with two variations in Subtex to suit different types of applications: Subtex R for rugged and tough installs and Subtex S, Slim tiles for budget projects.

## Subtex R

AnutoneSubtex R is a rugged, robust ceiling tile which combines a smooth white surface with very good properties in the areas of acoustics, fire safety and humidity resistance.

This is just what you want for a very durable ceiling construction. The different edge details in AnutoneSubtex R provide opportunities for semi-concealed ceilings as well as standard visible grid.

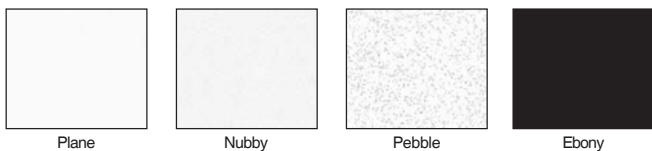

## Subtex S

AnutoneSubtex S is designed for areas requiring good NRC sound absorption with equally high light reflectance or light absorption. They are 0.8 NRC ceiling tiles that are economical for budget projects.

### Comparison of Subtex R & S with Subtex

Parameters	NEW		NEW		
	Subtex 'R'	Subtex	Subtex 'S'	Subtex	
Thickness (mm)	Same	15	15	12	Less
Moisture Resistance (%)	More	95	90	90	Same
Temperature (°C)	More	50	40	40	Same
Thermal Resistance (W/mK)	More	0.5	0.4	0.4	Same
Light Reflectance (%)	Same	85	85	85	Same
Fire	More	O/A	1/A	1/A	Same
NRC/STC	Less	0.8	0.94	0.8	Less
Green (recyclable)	More	50	35	35	Same
Cost (Rs/m <sup>2</sup> )	Less	665	700	617.5	Less

## Variants
