

# Ceiling solutions that are timeless

## Natural finish with woodwool boards – now improved!

The unique random twirls of fibre construction and textured surface finish sets woodwool boards apart in choice of ceilings for architectural spaces. A natural 'breathing' panel with the timeless appeal of fine fibres sharply contrasts the current fad of smooth surfaces of glazing, drywalls and stone floors. Know the history of woodwool boards on page 2 of [Strand TDS](#).

Yes, at Anutone, we still make woodwool boards! After all, it started our journey in 1966! In the last three years Anutone has unleashed a vast array of wall and ceiling products; so you could be excused in forgetting woodwool boards! We not only remember but have continuously improved the woodwool board to meet the challenges of changing building interiors and functional requirements! Know the Fabulous Features of Anutone's Strand on page 3 of [Strand TDS](#).

The 2010 collection is reorganized into four distinct product lines based on new fibre dimensions and matrix technologies. Refer the table.

Further, due to the wide array of other wall and ceiling products now available from Anutone, the previous brand, 'Smooth', for plain woodwool board is a misnomer to a newbie as Anutone expands into new markets around the world. 'Smooth' would be more appropriate to Serge Aquila or Belgravia Regula or even Sonator Pearl (all unperf panels from Anutone)! So 'Smooth' is now 'Strand'.

Anutone's new range of Strand woodwool boards from 2010:

Brand	Fibre	Matrix	Cement	Install	Compliant	Dimensions
Strand Plus	Superfine	Duolay	Magnesite	Premium	Euro	600x1200/2400
Strand	Fine	Duolay	Magnesite	Performance	Euro	600x1200/2400
Strand SS	Medium		Magnesite	Budget	BIS	600x1200
Strandec	Wide		Grey	Structural	Euro	600x1200/2400

Know more about Strand in the [Strand Brochure](#).

**⚠** Strand was formerly known as Natural SoundSmooth or NSS, SoundSmooth, Smooth. Due to legacy the Strand brand will transit through 2010/2011 and co-exist with the previous names.
