

UPDATES 1/3

This Tuesday please forgive us

A slew of new solutions in metal and wood ceilings means we need to loop you *2more* newsletters today!

At the end of the day we are sure you are going to thank us !!

The mantra at Anutone is architectural spaces must look good *and* sound great. We enjoy contradicting the popular notion, '*Blind Acousticians, Deaf Architects*'. We firmly believe that optimal acoustics can be delivered with stunning aesthetics and vice versa - striking visuals *can* sound great. The next 2 newsletters today has updates that are testimony! Here is an overview.

2/3 - New solutions in metal ceilings - the Serge makeover

Serge Auriga - Anutone launches Auriga microperf in Serge metal ceilings. Auriga microperf is almost invisible and renders the panels close to unperf or plain thus enhancing the aesthetics manifold.

Serge Perfs - All perf patterns are now optimised and branded to ensure high fidelity between design concept and project installation.

Serge Salon - wood finishes in metal ceilings. Get the warmth of wood with the ruggedness of metal including curved ceilings!

Watch for our next newsletter this afternoon that gives you more details.

3/3 - New solutions in wood ceilings - the Salon makeover

Salon Spots - Spots in two new designer perforation pattern - Sfera and Cosmos - and microperforations for a more creative visual interest.

Salon Slats - Slats in slim widths for curved ceilings, a new wider lineal perforation, diffuser panels without perforations & acoustical fleece, new colours - changes that continue to make Slats the numero uno Salon product.

Idealight - luminaires with melamine and veneer trims that match your Salon ceilings.

Experience your design on the monitor with the new Salon simulator even before a mockup or actual install at site.

Watch for our third newsletter this evening that gives you more details.
