Home Theatre Acoustics

Are the dialogues muddled instead of crisp?
Does the room sound echoey or boomy?
Wait! Don't blame your equipment!

It is room acoustics! It is true that the most expensive of AV gear cannot deliver pristine sound if the acoustical environment is not in sync. So how does one go about it?

Anutone is the answer! Anutone's vast array of acoustical products, systems, solutions and services enables you to optimise the audio and realise the best from your equipment.
