

Noizkon™

Noise management made easy™

Total • Ekcel • Absol • Meta • Struct

Industrial Noise Control.. now at your Fingertips!

From noise control of sprawling petrochemical complexes, mega power plants, noisy processes, factories and engine test cells to critical testing chambers, Anutone's powerful, new Noizkon™ programme makes 'noise management' easy!

Noizkon™ takes your intent to its final deliverable destination! Also, it ensures that you get the best of expert solutions to all your noise problems. Anutone already has a solution to a probable noise problem! So, take your industrial verticals towards perfection – use Noizkon™. After all, Noizkon™ makes noise management so easy!

About Anutone®

Anutone® is India's foremost acoustics technology company in the speciality construction - architectural / industrial / consumer - sectors with advanced, innovative, application-oriented, techno-commercially superior products, systems and services.

These meet the needs of rapidly changing markets of

- Architectural Acoustics
- Noise Vibration Management
- Noise Labelling of Export Machinery
- Hearing Conservation Programmes
- Audio-Visual Systems Engineering

to companies, institutions, government and individuals in Asia and around the world.

About Noizkon™

Noizkon™ serves the speciality needs of industrial verticals through **Design, Supply, Build** solutions. The complete acoustics value-chain from a one-stop, single-source brainware, resulting in noise-managed spaces for intelligent industrial complexes and buildings enabled by smart architecture.

Noizkon™ programme delivers noise and vibration control from intent to reality by the 3-pronged mechanism of –

- Design – **Total™**
- Supply – **Ekcel™ / Absol™ / Meta™**
- Build – **Struct™**

Anutone's 5 portals is the 'TEAMS' - approach - that truly realises noise-managed spaces as intended.

Enhancing Hearing Experiences™

Noizkon™

Noise management made easy™

Total • Ekcel • Absol • Meta • Struct

The Noizkon™ programme fulfils your Industrial Acoustic needs!

Is noise an issue?

Is it affecting your productivity and profitability?

Does noise interfere with communications & safety?

Is noise causing stress to your employees?

Do you want to be ISO 14001 2004 certified?

Don't fret! Help is at hand!

Anutone® offers you the complete value-chain of –

- analysis, product supply, installation, validation
- noise mapping of existing industries
- noise modelling for proposed industries
- analysing shopfloor acoustics, noise source location.

Anutone® helps with

- sound power analysis via the sound intensity or substitution method
- supplies ready-made sound-conditioned testing rooms for both anechoic and reverberant conditions.

Anutone® assists with

- Hearing Conservation Programmes (HCP) that embrace the entire gamut of data acquisition, evaluation, management, retrieval, reporting. Anutone oversees the process holistically and completely, with an international outlook.
- The use of audio-visual systems in an industrial set-up is growing in India. Anutone® bats for industrial AV that is rugged, weather & dust resistant and truly serves the needs of your busy shopfloor.

You name it & we have it!

Let us help in making your industrial world a better noise-managed space!

anutone®
Enhancing Hearing Experiences™

Making noise management easy

Anutone's service for the industrial sectors - the Noizkon™ programme is currently divided into 3 distinct protocols
• SoundSafe™ • SoundStrong™ • SoundStead™

SoundSafe™

Zero Complaints from Workpersons & Neighbours!

Under this Noizkon protocol from Anutone®, noise management is made easy for **General and Light Industries**, such as Factories and/or Workshops.

From Acoustical Designing to Supplying the acoustical materials, to Installation, Anutone has the entire value-chain to offer!

Acoustical products on offer include - EkcelBoard™ (thermacoustic roofing & walling), SoundBlocks™ (acoustical unit masonry), SoundWave™ (functional absorbers), SoundSheath™ (piping insulation), SoundSuppress™ (duct liners), SoundShut™ (acoustical doors), SoundSeraf™ (acoustical ceilings), SoundShelt™ Industrial (sound-conditioned rooms), SoundSieve™ (acoustical louvers), SoundSet™ (vibration isolators), SoundSplit™ (duct silencers & acoustical plenums), SoundScience™ (anechoic and reverberation chambers)

Noise management for infrastructure

- Transport - Railways & Traction
- Transport Construction - Roadways, Airfields, Bridges
- Coastal, Waterways, Marine, Ports, Dams

Noise management for process equipment

- Process Piping & Controls - Gas, Liquids, Bulk Solids
- Bulk Material Handling - Sizing, Conveyors, Feeders
- Piece Material Handling - Conveyors, Cranes, Speciality
- Manufacturing Equipment
- Container Processing & Packaging
- Mobile Plant Equipment
- Process Heating, Cooling, Drying Equipment
- Process Gas & Liquids Equipment
- Pollution Control - Water Treatment Plants

Noise management for light industries

- Food Manufacturing
- Beverage & Tobacco
- Textile & Apparel
- Leather & Allied
- Wood Products
- Printing & Related
- Plastics & Rubber
- Fabricated Metal
- Computer & Electronics
- Electricals & Appliances
- Furniture & Related

SoundStrong™

Heavy Noise made Light!

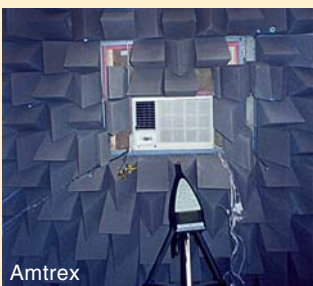

Under the SoundStrong™ protocol from Anutone, noise management is made simple for **Special & Heavy Industries**, such as Automotive, Aviation, Petrochem, Power etc. As usual, we do everything from Design, Supply, to Build for your industrial facility!

Our products that manage noise are EkcelBoard™ (thermacoustic roofing & walling), SoundBlocks™ (acoustical unit masonry), SoundWave™ (functional absorbers), SoundSet™ (vibration isolators), SoundSheath™ (piping insulation), SoundSuppress™ (duct liners), SoundSeraf™ (acoustical ceilings), SoundShelt™ (sound-conditioned rooms), SoundSieve™ (acoustical louvres), SoundSplit™ (duct silencers & acoustical plenums)...

Noise management for heavy industries

- Oil and Gas
- Mining
- Petroleum & Coal
- Primary Metal
- Chemicals & Pharma
- Non-metallic Minerals
- Machinery Manufacturing
- Transportation & Material Handling Equipment
- Electrical Power - Fossils
- Electrical Power - Nuclear
- Electrical Power - Hydro

Amtrex

TVS

Wheels

Madina Jumeirah

SoundStead™

Super Silent Services – Now Delivered!

Under this protocol, Anutone® offers noise management for **Utility Spaces**, such as Plumbing, HVAC and Electrical (PHE). Our Design, Supply *and* Build services are available for all these applications!

We have quite a few supply products to control noise generated in these spaces, such as EkcelBoard™ (thermacoustic roofing & walling), SoundBlocks™ (acoustical unit masonry), SoundSet™ (vibration isolators), SoundSheath™ (piping insulation), SoundSuppress™ (duct liners), SoundShut™ (acoustical doors), SoundSeraf™ (acoustical ceilings), SoundSieve™ (acoustical louvres), SoundSplit™ (duct silencers)...

Noise management for utilities

- Water & Wells Utilites
- Energy Distribution Utilites - Gas, Liquids, Steam
- Sanitary Sewerage Drainage Utilites
- Electrical Utilites

The TEAMS portals

Anutone delivers the 3 protocols of Noizkon™ through it's 5 portals that complete the Design, Supply, Build (DSB) value chain.

Total™

Noizkon's 'Design' portal, Total™, offers innovative **solutions in noise management with full service support.**

Ekelcel™

Noizkon's first 'Supply' portal, Ekelcel™ designs, manufactures & supplies acoustical systems made of **Inorganic Bonded Composites (IBC).**

Absol™

Noizkon's second supply portal, Absol™ offers **non-IBC, non-metal acoustical design solutions.**

Meta™

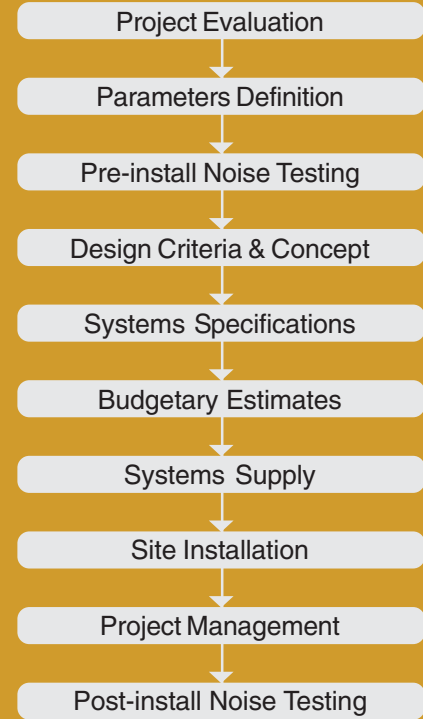

The third supply portal of Noizkon™, Meta™ division has **metal-based systems** with primary application in utilities & mechanical services and industrial facilities.

Keeping in mind the world's growing concern with environmental pollution, Meta™ systems are custom-engineered with M&E consultants to meet complex requirements of noise vibration control for general & specialised industries.

Struct™

The 'Build' portal of Noizkon™, Struct™ excels in **supply chain management, logistics control.** It also undertakes scientific installation of specified noise-management systems according to the current global standards to take the design value-chain to completion.
